Precision in Practice

***Wendy Jensen, DVM***

AVH-certified

Bow, NH

***Jensen Homeopathic Veterinary Practice***

# Muffler Timeline

9/04: jumped in the truck at a gas station;  
about 8 months old; neutered

few weeks later: **thuja** for drop in appetite,  
coughing, chill

5/06: **silica** for abscess

12/06: tail slammed in truck door; **hypericum**

1/3/07: obstruction, straining to urinate

# Stuart Close

from *The Genius of Homoeopathy*

“A single symptom is more than a single fact: it is a fact, with its history, its origin, its location, its progress or direction, and its conditions.”

p. 152

# Symptom: Urinary Obstruction

Origin and Conditions (Modalities): days after getting tail slammed in door, immediately after exposure to cold and wet all night, cough still present, itchy dirty ears

History: straining to urinate began 1/3/07

Details: straining a long time, small amounts of urine, dribbling out of him in car on way to hospital, when struggling at vet's suddenly "ton of urine poured out"

Concomitant: vomiting brown fluid

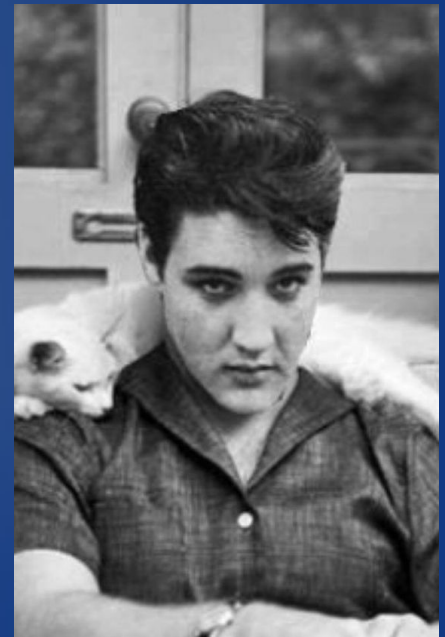

# Muffler's Violence

Launching himself off his person's back

Biting ankles

Grabbing with paws

# Muffler--Case Progression

- 1/5/07: catheter pulled
- 1/6/07: bladder very large, not trying to urinate--  
phosph 30C
- resolution of all symptoms, including violence
- 8/09: phosph 200C for lameness
- 3/11: phosph 200C for intermittent urine stream
- 5/11: phosph 1M for humping stuffed animals

# Kiefer Timeline

2/28/07: DOB

8/97: declawed and neutered

8/05: anesthesia reaction

8/08: lost 2#, HQ weakness

9/09: hematoma in his right ear

2009?: began to meow

1/19/10: ulcer right eye, never fully clears up

4/10: now corneal edema

5/10: began homeopathic treatment

# Kiefer Symptom List

- non-healing ulcer right eye
  - clear water drips down his nose
- hungry often, begins early AM
- overweight at 18#
- hindquarter weakness < L
- will fall off surfaces when stretching and rolling

# Kiefer—Case Progression

- 5/10/10: **calc 30C**
- 7/5/10: “miraculous, amazing, wonderful” eye healed, no more tears, much more playful, stands up on back legs for attention, edge off his appetite
- 11/5/10: **calc 200C** for tearing
- 7/12: eye still fine, but did not lose weight
